PROJECTS

User Authentication and Email Verification System | Html,Css,Javascript,React,Formik

- Developed a MERN stack application with features including user login, registration, profile update, and password reset with email verification. Implemented JWT-based authentication and utilized Formik for efficient form handling and validation.

Automated SQL Query Generation through NLP | Python,Streamlit,Database- sqlite3,

- Developed a Python-based web application that converts natural language text into SQL queries using the Gemini Pro model. The application processes human-like text inputs to generate accurate SQL queries based on user prompts. Integrated SQLite for database management and implemented a user-friendly frontend with Streamlit to facilitate easy interaction with the database.

Admin Library Management System | Python,Database- Mysql,GUI-Tkinter

- Developed a comprehensive library management system using Python, MySQL, and Tkinter. The application allows administrators to efficiently issue, add, and manage books and student records. It features a user-friendly graphical interface for seamless interaction with the database, streamlining library operations and data management.

INTERNSHIP

Salesforce

Salesforce Developer

July 2024–Aug 2024

Dehradun, Uttarakhand

- Completed a Salesforce Developer virtual internship from July to August, where I gained hands-on experience in developing and customizing Salesforce applications. Worked on creating and managing Salesforce objects, automating business processes, and integrating third-party services. Enhanced my skills in Salesforce Apex, Visualforce, and Lightning components while contributing to real-world projects and collaborating with a team of developers.

TECHNICAL SKILLS

Languages: Python, C, C++,JavaScript, SQL, NoSQL, HTML,CSS

Developer Tools: VS Code,Pycharm

Technologies/Frameworks: GitHub, ReactJS, NodeJS, Git, Mongo, Mysql

ACHIEVEMENTS

Coding Profiles | Leetcode

Coding Profiles | Codechief CodeChief contest rating of 1514(max),2star Coder
